

Our Services

- Visitation services are provided at Baumann Cottage for families with the goal of reunification.
- We are committed to providing parents and children with a home-like setting for their visits in hopes to provide a sense of normalcy as they navigate through the child welfare system.
- Baumann Cottage has four visit areas to choose from in the home, as well as a deck and a field within close proximity to the cottage that are perfect for outside interaction.
- Our experienced visit coaches are certified in Nurturing Parenting, are trauma-informed, and bilingual in English and Spanish.

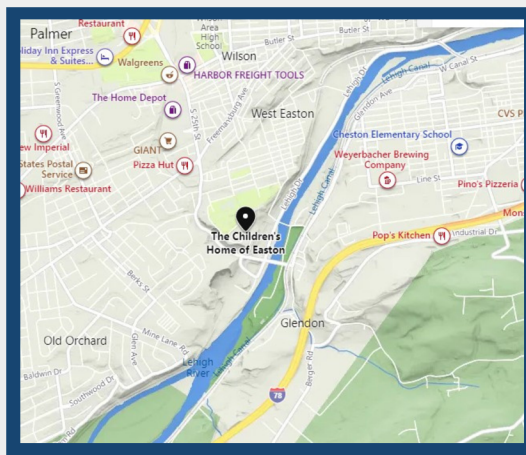

It is our belief that providing this type of setting will aid in building and maintaining relationships between children and their parents.

Reunification is our goal.

Los entrenadores de visita también hablan español.
